Ministry of Agriculture and Farmers Welfare, Government of India, has taken “Swachhta campaign” in larger scale through different Institutes. National Institute of Plant Health Management (NIPHM) has enthusiastically executed different activities listed under the campaign. “Swachhta Pakhwada” campaign was observed at National Institute of Plant Health Management (NIPHM), Hyderabad from 16th December to 31st December, 2023, as part of the Campaign, the day wise activities commenced throughout the campaign are as follows:

16.12.2023

Water tank cleaning at LBS Blocks

Water is undoubtedly the most important part of our lives and is something one cannot do without. Not only does it quench our thirst but is also important as far as cooking, personal hygiene and cleaning is concerned. While it is true that water replenishes us, removes toxins from the body and helps us in uncountable ways but at the same time, a lot of diseases are also caused if one consumes water in its impure form. This is why it is important that the water that we drink or cook food in is absolutely clean and pure. NIPHM always ensures the proper and regular cleaning and maintenance of water storage units/tanks installed in premises. Cleaning Campaign was started with water tank cleaning activities at NIPHM office premises on 16.9.2019 at LBS.

Cleanliness drive undertaken by all staff and contractual staff in their respective work areas

22-12-2023

Organizing village camps to address the local communities on swachhata with special focus on sustainable toilet uses and taking up waste management work in their area, awareness of water conservation and proper disposal of insecticide containers

NIPHM staff organised the awareness programme at Anganwadi kendram Government School, Aziznagar Village, Moinabad Mandal, Rangareddy District. Total population of Village is 4,700, out of which 70 percentage of this population were illiterates and depends on agriculture and they harvest crops like paddy, cotton and vegetables with bore well water, so water and insecticide usage was more, hence the conducted awareness programmes were more useful to farmers, which are as follows.

- i) water conservation
- ii) Proper disposal of insecticide containers.
- iii) Sustainable toilet uses
- iv) Tacking up waste management work in their area

Aziznagar Village, Moinabad Mandal , Rangareddi District, Telangana

23-12-2023

Organizing of 'Swachhata Shapath/pledge at NIPHM Office premises. Observance of Kisan diwas (Farmers day).

NIPHM organized "Swachhata Shapath" at office premises. Pledge was administered by Registrar Ms. Spurthi Reddy, I.R.S. All the staff of NIPHM had participated. Same day kisan diwas was organized by PHM Division. National Farmers day or Kisan Divas is celebrated every year on 23 rd December, as 23 rd is marked as the Birth Anniversary of farmers leader Sh. Chaudhary Charan Singh who followed the slogan of 2 nd Prime Minister of India, Lal Bahadur shastri "Jai Jawan Jai Kisan". Kisan Divas is celebrated to pay respect to the farmers of the country and to reward and promote the contribution of farmers to our land. In view of above NIPHM has organized the Farmers day celebrations on 23rd December, 2023. About 19 farmers has visited the Biocontrol labs of the Institute. The farmers were explained about importance, mass production of biopesticides.

25-12-2023

Cleaning water tanks in NIPHM Quarters

It is very important to clean the water tanks installed in our houses and workplaces on a regular basis. Water cleaning activities were taken in NIPHM residential area and on 25.12.2023. If the water tank is not cleaned on a regular basis, it can lead to impurities in the water which may consist of many harmful germs. Water can thus get infected with various kinds of diseases and can also get polluted easily over a period of time and may thus prove harmful for consumption and even for cleaning. Therefore, periodic cleaning of storage tanks is very important.

26.12.2023

Organizing camp activities at nearby villages to promote behavioural changes to keep surroundings clean with special focus on awareness regarding curbing the use of single use plastic, open defecation, deforestation, water wastage, dust/smoke free air and other anti-environmental practices.

The swachhata awareness activities were taken up to nearby Govt. School students. The programme was commenced with introduction of the NIPHM activities for more than 100 students. First of all the given titles were explained them through the posters like single use plastic, open defecation, deforestation, water wastage and dust/smoke free air. The students were asked to share the bad and good things whatever you are seeing in your surroundings. In this connection many of them shared the bad practices which are followed by the general public like throwing the garbage into the river, road side and etc. Similarly some of shared good things like handover the garbage to municipality garbage collection vehicles.

Apart from the above activities pencil drawing competition on pollutions and deforestation was organized. In the similar line quiz also been conducted the question were related to Swacchata. In both activities students were actively participated and prizes were distributed.
